

**\*\*CONTRACTOR ANNOUNCEMENT\*\***

**FHWA Compliance for Subcontracts**

FHWA subcontracting regulations require projects with federal aid funding to have the FHWA-1273 **physically incorporated with the 1302 subcontract form PRIOR to any signatures.**

The Michigan Department of Transportation has created a new 1302 subcontract form to assist with meeting this requirement. Beginning with the November 1, 2019, bid letting, [Form 1302-FED](#) **must be used for all projects with federal funding.** [Form 1302-State](#) must be used for projects with only state funding.

Please submit all subcontracts through ProjectWise. After review by the managing office, they will be sent to [MDOT-ConstructionSubcontracts@michigan.gov](mailto:MDOT-ConstructionSubcontracts@michigan.gov) by the ProjectWise workflow.
