

****CONTRACTOR ANNOUNCEMENT****

Construction Prequalification Requests for Extension

Due to Executive Order 2020-21, MDOT will allow a 120-day extension for construction prequalification, rather than the current 60-day extension, when necessary during calendar year 2020.

Automatic adjustments of expiration dates will not be done by MDOT. You must request an extension by following the current procedure of e-mailing your request to MDOTPrequal@michigan.gov. If an additional 60 or 120-day extension is necessary, please e-mail your request on or before your extended expiration date.
