

PUMP STATION PERMANENT STANDBY GENERATORS – PHASE II – BUNDLE I

REVIEW OF DRAFT REQUEST FOR PROPOSAL:

When: December 13, 2023, to December 21, 2023 or until issuance of the final Request For Proposal (RFP)

Where: The Michigan Department of Transportation (MDOT) has posted a Draft RFP for the Pump Station Permanent Standby Generators – Phase II – Bundle I which is located in Macomb, Oakland, and Wayne counties on ProjectWise for review: [Design-Build Draft RFP/Pump Station Permanent Standby Generators - Phase II - Bundle I](#)

Please notify the MDOT Innovative Contracting Project Manager, James Ranger, by email at rangerj@michigan.gov for any issues with accessing the above ProjectWise link.

The project consists of installation of permanent standby generators and ancillary equipment at up to 44 pump stations.

Only shortlisted Design-Build teams can bid on this project.
