

Contractor Announcement

Enhanced Bidding is now available for **MDOT** on Bidx.com.

The September 4, 2026, letting is the first to use the new, enhanced bidding workflows and is now available on Bidx.com.

You can now access and submit your bids directly within Bidx.com. We're excited to provide you with a more streamlined, efficient, and accessible bidding process.

Please log in to Bidx.com to familiarize yourself with the new workflow and place your bids.

Key Reminders:

- This new system is fully browser-based—AASHTOWare Project Bids™ is not needed.
- Bidding is now fully compatible with all modern operating systems and browsers, including Mac.
- Remember to import your Infotech® Digital ID and create your security key upon your first login.
- For additional information, please refer to MDOT's previously posted contractor announcements, "Advertisement of First Bid Letting Items with Enhanced Bidding" and "Highlighted Changes Regarding MDOT's Upgrade to Web Enhanced Bidding" found on MDOT's Bid Letting site: [MDOT - BIDS Information](#)

Resources:

Infotech® has prepared the following resources to assist you:

- [Bidx.com | Contractor Information](#)
