SPECIAL PROVISION
FOR
CLOSED CIRCUIT TELEVISION CAMERA, REMOVE AND SALVAGE

GND:TCS

1 of 1

APPR:EG:MS:06-07-21

a. Description. This work consists of removing and salvaging a closed-circuit television (CCTV) camera surveillance system in accordance with the standard specifications for construction, except as noted in this special provision. Work includes the following:

1. Removal of a CCTV camera and support structure, including hardware, brackets, and cabling associated with the CCTV camera. Cables are to be removed to the nearest control cabinet or as directed by the Engineer.

2. Salvage of a CCTV camera and support structure, as directed by the Engineer, and associated hardware, including storing on site for re-installation.

b. Materials. None specified.

c. Construction. Provide and utilize equipment appropriate for removing the CCTV camera without incurring damage to the support structure or ground area surrounding the CCTV camera.

d. Measurement and Payment. The completed work, as described, will be measured and paid for at the contract unit price using the following pay item:
