CFS:TGH

1 of 1

APPR:TES:KPK:10-09-24
APPR:FHWA:10-10-24

Delete subsection 502.02 on page 5-26 of the Standard Specifications for Construction, in its entirety and replace with the following:

502.02. Materials

Provide materials in accordance with the following section:

HMA Crack Treatment and Overband 914.04.C

Add subsection 914.04.C on page 9-121 of the Standard Specifications for Construction:

- C. **HMA Crack Treatment and Overband.** Provide a material listed in the Qualified Products List. Follow manufacturer’s recommendation for material installation.

Legibly mark containers with a non-fading, weather resistant ink or paint. Include the manufacturers name or trade name, batch number, recommended pouring temperature, and the maximum safe heating temperature on the label.
