SPECIAL PROVISION
FOR
MISCELLANEOUS STEEL IN PRESTRESSED CONCRETE BEAMS

STR:KCK

1 of 1

APPR:MJF:REL:03-27-25
FHWA:APPR:04-14-25

Delete this subsection 708.03.C.6, on page 7-97 of the Standard Specifications for Construction, in its entirety and replace it with the following:

6. **Miscellaneous Steel.** Galvanize carbon steel components cast into the structural concrete elements to facilitate fabrication and bridge construction including, but not limited to, forming, finishing, false decking, safety tie-offs, or any other temporary works in accordance with AASHTO M111, AASHTO M232, ASTM B633 Service Condition 1, ASTM B695, or epoxy coated in accordance with ASTM A775/A775M. Prestress strand restraining devices at hold down locations are exempt from this requirement and can be used uncoated.
