SPECIAL PROVISION
FOR
TEMPORARY WET REFLECTIVE PAVEMENT MARKINGS

CFS:CGB

1 of 1

APPR:LLR:MKB:01-04-24
FHWA:APPR:01-25-24

Delete subsection 922.06.A.2, on page 9-216 of the Standard Specifications for Construction in its entirety and replace it with the following:

2. **Pavement Marking, Wet Reflective, Type NR Paint.** Provide wet reflective (WR) Type NR temporary pavement markings as paint.

- a. **Wet Reflective Optics.** Select glass beads meeting the requirements of subsection 920.02.B of the Standard Specifications for Construction.

Select WR optics meeting the requirements of subsection 920.02.C of the Standard Specification for Construction.

Submit certification, prior to the start of work, from the wet reflective optics and glass bead manufacturer that when applied according to the manufacturer's application recommendations, the glass beads and wet reflective optics meet the requirements specified in subsections 920.02.B and 920.02.C.

Ship the material to the job site or Contractor's yard in sturdy containers marked in accordance with subsection 920.01.A.

- b. **Binder Material for Temporary Wet Reflective Type NR Pavement Markings.** Select the liquid applied pavement marking from one of the following materials from the Qualified Products List to use as a binder for the WR optics or as an alternative as approved by the Engineer:

811.03D1 Waterborne, Liquid Pavement Marking Material

811.03D2 Low Temperature Waterborne, Liquid Pavement Marking Material

811.03D3 Regular Dry Paint, Liquid Pavement Marking Material
