The castings shall meet the requirements of the current standard specification for gray iron castings.

All castings shall be cleaned by current approved blasting methods.

The castings shall be free of pouring faults, blow holes, cracks and other imperfections. They shall be sound, true to form and thickness, clean and neatly finished, and shall be coated with coal tar pitch varnish.

The castings shall be set in soft mortar bed to the elevation specified on the plans and in such a manner as to provide a firm and uniform bearing on the masonry wall.

This cover is designed to fit on any inlet, catch basin or on any existing similar structure when so designated on the plans.
