ADDITIONAL INFORMATION FOR THIS COLLECTION		

NONMOTORIZED TRAFFIC SURVEY REQUEST

Instructions

- Please make sure to fill out all information for each individual count request, even if requests take place in the same **County, Community** or on the same **Facility**.
- **Type of Facility to Collect:** Please pick one of the choices from the drop-down list, see explanations below:
 - **Trail (Paved/Unpaved)**
 - **Side path:** Also known as Shared-Use Path.
 - **Sidewalk(s):** Please specify in the **Additional Information** field if your location has more than one Sidewalk you want collected.
 - **Bike Path**
 - **Bike Lane(s):** Please specify in the **Additional Information** field if your location has more than one Bike Lane you want collected.
 - **Roadway:** Can be selected for unmarked mid-block crossings or for Roadway Shoulders. Please specify which in the **Additional Information** field.
 - **Crosswalk:** Please specify in the **Additional Information** field if your location has more than one Crosswalk you want collected.
 - **Other:** Please specify in the **Additional Information** field.
- **Collection Time-Frame:** Please pick one of the choices from the drop-down list. If a count needs to include school children, pick either the Spring or Fall option and note that school needs to be in session. A specific date a count needs to be completed by can be included in the Additional Information section, but we cannot guarantee that we will make that due date.
- **Google Maps Link:** Please provide a Google Maps Link to your requested location. To get a Google Maps link:
 - Open Google Maps.
 - Navigate to the desired count request location.
 - Left click at the desired collection point to drop a pin.
 - Left click the Latitude and Longitude that pop up at the bottom of the map.
 - Copy the URL and paste into the Form.
 - Please double check that your Google Maps Link works and is set for the correct location.
- **Type of Nonmotorized Traffic & Count Duration:** Please pick one of the nonmotorized traffic types from the drop-down list. Nonmotorized counts can be requested in 24 hour increments up to the total that is listed per type of collection:
 - **Bikes Only:** Up to 7 days.
 - **Pedestrians Only:** Up to 48 hours.
 - Technological limitations exist, hence the 48-hour maximum.
 - Requires a nearby light-source for accurate nighttime traffic collection. Locations without a light-source can be requested, but nighttime accuracy will be diminished.
 - **Mixed Bike/Pedestrian (Volume Only):** Up to 7 days.
 - Collects bikes and pedestrians as a total, the individual number of bikes and pedestrians are not specified.
 - Due to technological limitations this cannot be done for collecting Roadways.
 - **Mixed Bike/Pedestrian (Classification):** Up to 48 hours.
 - Separates out the number of bikes and pedestrians, specifying a total for each.
 - Technological limitations exist, hence the 48-hour maximum.
 - Requires a nearby light-source for accurate nighttime traffic collection. Locations without a light-source can be requested, but nighttime accuracy will be diminished.
- **Additional Information for This Collection:** Can be used to provide context about the site or type of data you would like collected, for what purpose, preferred time of year, etc.
Example: You want the count done in the Fall to make sure kids are back in school, so they are included in the collection.
- If you have any questions, please contact Kevin Funtik (FuntikK@Michigan.gov) or Frank Benavidez (BenavidezF1@Michigan.gov).
