

SPECIAL CONDITIONS FOR DISCHARGE OF TREATED EFFLUENT

1. Violation of any permit conditions or rules under Act 451 constitutes a violation of this permit and may result in termination of the authorization to discharge into the trunkline drainage system.
2. Any costs of cleanup shall be considered as restoration and shall be the sole responsibility of the permittee pursuant to condition 13 of the permit.
3. This permit, if not implemented within 12 months of issuance, shall expire unless the permittee reaffirms with the issuing office in writing the authority granted.
4. This permit is valid only upon issuance of a NPDES permit.
5. A copy of the Discharge Monitoring Report (DMR) shall be sent to the following address on a monthly basis:

Michigan Department of Transportation
Construction and Technology Division
Geotechnical Unit
P.O. Box 30049
Lansing, Michigan 48909
Attention: Managing Engineer

6. The Department of Transportation reserves the right to require removal of all or any portion of the facility placed on state trunkline right of way by this permit as needed for highway maintenance or construction purposes without replacement or reimbursement of any costs incurred by the permittee or any other party. The permittee will defend, indemnify, and hold harmless the Department from any claims whatsoever resulting from the construction or removal of the facility authorized by this permit.
7. Upon completion of the remediation, a copy of the MDEQ (Michigan Department of Environmental Quality) approval of clean closure shall be sent to the address noted in item #5 above.

I understand and agree to comply with the above special conditions:
