

BUILDING MOVE PERMIT

COMMERCIAL VEHICLE SAFETY ALLIANCE (CVSA)

CVSA stickers indicate that a truck has received a safety inspection completed by a motor carrier officer of the State Police. Customers needing to obtain a CVSA sticker can contact the closest State Police Headquarters (listed on the Michigan Map) and ask for a motor carrier officer. If no motor carrier officer is at that location the customer must contact a different location.

CVSA stickers are required for the primary and auxiliary towing units to move a building.

There is no fee for the inspection or sticker.

The CVSA stickers are issued for a 3 month period. Each quarter is assigned a specific color. They are as follows:

Green - January, February, March

Yellow - April, May June

Orange - July, August, September

White - October, November, December

Every sticker has a unique reference number located at the bottom of the sticker. The single digit number, in the center, indicates the year the sticker was issued. The stickers are good for a minimum of three months regardless of which month of the quarter they were issued.

- 1) Top two corners cut indicate that the sticker was issued in the first month of the quarter.
- 2) Top right corner cut indicates that the sticker was issued in the middle month of the quarter.
- 3) No corners cut indicate that the sticker was issued in the last month of that quarter.
